enmeshed in the exploitative world of racial slavery overseers were central figures in the management of early american plantation enterprises all too frequently dismissed as brutal and incompetent they defy easy categorisation some were rogues yet others were highly skilled professionals farmers and artisans some were themselves enslaved they and their wives with whom they often formed supervisory partnerships were caught between disdainful planters and defiant enslaved labourers as they sought to advance their ambitions their history revealed here in unprecedented detail illuminates the complex power struggles and interplay of class and race in a volatile slave society

before he became the father of our country george washington was the father of the american army he took an army that had no experience no tradition and no training and fought a protracted war against the best most disciplined force in the world the british army deftly handling the political realm washington convinced congress to keep his army supplied a

difficult task when the country was really just a loose confederation of states with no power to tax washington influenced every phase of the revolutionary war from beginning to end he left his mark with strategies and a vision of the revolution as a war of attrition his offenses were as brilliant as they were unpredictable such as his legendary christmas day strike at trenton and a bold foray through the fog to nearly drive the british from the field at germantown it was an aggressive attack that helped convince the french that the american army was worth supporting in washington award winning author gerald m carbone argues that it is this sort of fearless but not reckless spontaneous but calculated offensive that washington should be remembered for as a leader not of infallibility but of greatness
