for christians holy scripture is not only a source of revelation on which to ground one s faith it is also an indispensable reference point for morality they are convinced that in the bible they can find indications and norms of right behaviour to attain fullness of life this use of scripture is not of course without its problems caused by the different times and circumstances in which people find themselves today compared with biblical times in 2002 the pontifical biblical commission at the behest of the then president cardinal joseph ratzinger set about to examine the problem of the relationship between the bible and morality by posing itself the question what is the value and the significance of the inspired text for today s morality this

document seeks then to explain the context for norms of morality encountered in scripture and shows also that while there remain moral questions which cannot be fully answered from scripture nevertheless scripture does offer criteria which are helpful in finding solutions
