this book covers three main types of agricultural systems the use of robotics drones unmanned aerial vehicles and satellite guided precision farming methods some of these are well refined and are currently in use while others are in need of refinement and are yet to become popular the book provides a valuable source of information on this developing field for those involved with agriculture and farming and agricultural engineering the book is also applicable as a textbook for students and a reference for faculty

Report on Activities, ... December 28, 2013 to January 2, 2015, House Report 113-679, 113-2 2015

this study addresses the role the food bank plays in food security sustainable livelihoods and building resilience to climate change among smallholder farmers in uganda and in particular eastern uganda currently it is difficult to measure the socioeconomic impact of the food bank on smallholder farmers in eastern uganda due to the difficulty of isolating its contribution from that of interrelated programmes and farming activities it is however evident that the food bank plays a significant role in improving the smallholder farmers food production incomes the food bank is actively engaged in training smallholder farmers in modern farming methods providing improved seeds and safe storage for farmers produce helping farmers to diversify their livelihood sources and providing climate related information abstract

The Role of Food Banks in Food Security in Uganda* **2015-01-12*

onshore unconventional gas operations in most jurisdictions operate on the legal principle that all activities during exploration and extraction are temporary in nature the concept that the onshore unconventional gas industry has a temporary effect on the land on which it operates creates a regulatory paradox on one hand unconventional gas activities create energy security national wealth and a burgeoning export industry on the other agricultural land and agriculturalists may be significantly disadvantaged by unconventional gas activities potentially producing permanent damage to non renewable fertile soils and spoiling the underground water tables thus threatening future food security and food sovereignty this book explores the socio regulatory dimensions of coexistence between agricultural and onshore unconventional gas land uses in the jurisdictions with the highest concentration of proven unconventional gas reserves australia canada the usa the uk france poland and china in exploring the differing regulatory standpoints of unconventional gas land uses on productive farming land in the chosen jurisdictions this book provides an original three part categorisation of regulatory approaches addressing the coexistence of agricultural land and unconventional gas namely adaptive management precautionary and finally statism it offers a timely and topical approach to socio legal natural resource governance theory based on the participation transparency and empowerment for agricultural landholders examining how differing frameworks such as the

collective bargaining framework can create equitable and sustainable contractual arrangements with unconventional gas companies

Agricultural Land Use and Natural Gas Extraction Conflicts 2018-11-02

this volume presents in depth insights into the polity politics and policies of the brazilian political system it reassesses the processes of change since the country s return to democracy in the 1980s in the light of autocratic societal structures and suboptimal institutional design on the one hand and the political and economic achievements observed on the other in their contributions top brazilian and international scholars critically examine the development of the political system with a focus on the lula and rousseff administrations and place their actions and failures in the socio political and economic context so as to uncover the underlying institutional structures constellations and diverging interests of actors on various decision making levels and in different political fields it is the central aim of this book to present a differentiated portrait of the current political landscape and remaining contradictions in latin america s largest country

The Political System of Brazil 2015-10-27

Aligning Policies for a Low-carbon Economy 2015-07-03

the oxford handbook of italian politics provides a comprehensive look at the political life of one of europe s most exciting and turbulent democracies under the hegemonic influence of christian democracy in the early post world war ii decades italy went through a period of rapid growth and political transformation in part this resulted in tumult and a crisis of governability however it also gave rise to innovation in the form of eurocommunism and new forms of political accommodation the great strength of italy lay in its constitution its great weakness lay in certain legacies of the past organized crime popularly but not exclusively associated with the mafia is one example a self contained and well entrenched caste of political and economic elites is another these weaknesses became apparent in the breakdown of political order in the late 1980s and early 1990s this ushered in a combination of populist political mobilization and experimentation with electoral systems design and the result has been more evolutionary than transformative italian politics today is different from what it was during the immediate post world war ii period but it still shows many of the influences of the past

Calendars of the United States House of Representatives and History of Legislation 2013

globalisation and technological innovation have been fuelling the need for increasing levels of trust in private actors such as companies or special interest groups to regulate and enforce significant aspects of people s daily lives from environmental and social protection to the areas of food safety advertising and financial markets this book investigates the trust vested in private actors from the perspective of european citizens it answers the question of whether private actors live up to citizens expectations or whether more should be done as to the safeguarding of citizens interests several cross cutting studies explore how private regulation and enforcement are embedded in eu law the book offers an innovative approach to private regulation and enforcement by focusing on the specific eu context which unlike the national and transnational

ones has not yet been widely explored this context merits a stand alone analysis because of the unique normative framework of the eu as a particular polity itself but also in relation to its member states with an overall analysis of the main aspects of private regulation and enforcement across different policy fields of the eu the book adds a missing tile to the mosaic of public private governance studies

The Oxford Handbook of Italian Politics 2015

the global innovation index ranks the innovation performance of 143 countries and economies around the world based on 81 indicators this edition explores the role of the individuals and teams behind the innovation process it sheds light on different aspects of human capital required to achieve innovation including skilled labor the intersection of human financial and technological capital talent retention and the mobilization of highly educated people

Private Regulation and Enforcement in the EU 2020-06-25

this book presents a practical approach to pro environmental challenges faced by companies in the process of restructuring it contains a broad variety of case studies from different economic sectors and small and large businesses in four european countries ukraine romania germany and poland the studies are the results of surveys of companies that had either already restructured or were planning to and reveal both the weaknesses and strengths in these practices the book is divided into three parts explorations of how political and legal factors are embedded in a company s strategy and how they influence the company s behaviour analyses of companies activities on matching restructuring with ecology and approaches to ecoinnovations within the companies the case studies throughout the book show that the restructuring of a company is an opportunity for the implementation of proecological action and green business models the authors trust that the experiences and good practices of others will prove valuable both for future businessmen i e students but also for academics and representatives of local government central environmental agencies owners and managers of enterprises to be restructured this work was published by saint philip street press pursuant to a creative commons license permitting commercial use all rights not granted by the work s license are retained by the author or authors

The Global Innovation Index 2014 2014

what circumstances or behaviors turn poverty into a cycle that perpetuates across generations the answer to this question carries especially important implications for the design and evaluation of policies and projects intended to reduce poverty yet a major challenge analysts and policymakers face in understanding poverty traps is the sheer number of mechanisms not just financial but also environmental physical and psychological that may contribute to the persistence of poverty all over the world the research in this volume explores the hypothesis

that poverty is self reinforcing because the equilibrium behaviors of the poor perpetuate low standards of living contributions explore the dynamic complex processes by which households accumulate assets and increase their productivity and earnings potential as well as the conditions under which some individuals groups and economies struggle to escape poverty investigating the full range of phenomena that combine to generate poverty traps gleaned from behavioral health and resource economics as well as the sociology psychology and environmental literatures chapters in this volume also present new evidence that highlights both the insights and the limits of a poverty trap lens the framework introduced in this volume provides a robust platform for studying well being dynamics in developing economies

Catalogue of the Public Documents of the [the Fifty-third] Congress [to the 76th Congress] and of All Departments of the Government of the United States 2019-10-30

European banking supervision also known as the single supervisory mechanism is the first and arguably the main component of the European Banking Union in late 2014 the European Central Bank became the supervisor for the region's largest banking groups the ECB also oversees the supervision by national authorities of smaller banks this blueprint is the first in-depth study of how this ground-breaking reform is working in practice despite teething troubles and occasional misjudgements this assessment finds that overall European banking supervision has been effective demanding and broadly fair at least for the banks under the ECB's direct watch even so achieving a truly single market in banking services will require more time further supervisory initiatives and new Europe-wide regulatory and legislative steps

The Productivity Puzzle: Restoring Economic Dynamism 2015-01-09

this book examines the theory and praxis of the legal concept of subsidiarity and the policy paradigm of multilevel governance providing an updated overview on how subnational and national authorities engage within the EU institutional framework providing a theoretical assessment of real-life case studies the book reflects on a number of key events from the negotiations of the European Convention to the process that led to the Brexit referendum and assesses the key agendas and institutional ethos of most actors involved in EU policymaking it particularly focusses on the EU engagement of so-called non-privileged actors such as subnational authorities from the UK Germany Austria Italy the Netherlands and Scandinavia as

well as national and regional parliaments the author goes on to examine the sometimes selfish behaviour and individual agendas of the european commission european parliament member states and even the european court of justice but also identifies many constructive ways of interaction that can decisively frame how eu decisions are made this comprehensive book will be a useful reference to students practitioners and academic researchers working in european politics policymaking public policy and eu law and integration

Rethinking the European Union 2022

this volume focuses on microscopic plastic debris also referred to as microplastics which have been detected in aquatic environments around the globe and have accordingly raised serious concerns the book explores whether microplastics represent emerging contaminants in freshwater systems an area that remains underrepresented to date given the complexity of the issue the book covers the current state of research on microplastics in rivers and lakes including analytical aspects environmental concentrations and sources modelling approaches interactions with biota and ecological implications to provide a broader perspective the book also discusses lessons learned from nanomaterials and the implications of plastic debris for regulation politics economy and society in a research field that is rapidly evolving it offers a solid overview for environmental chemists engineers and toxicologists as well as water managers and policy makers this work was published by saint philip street press pursuant to a creative commons license permitting commercial use all rights not granted by the work s license are retained by the author or authors

European Union Politics 2014-01-01

An Introduction to Heritage Breeds 2016-06-14

provides a concise and authoritative reference on the use of vaccines against diseases of livestock compiled by senior animal health officers at the food and agriculture organization of the united nations and with contributions from international leading experts veterinary vaccines principles and applications is a concise and authoritative reference featuring easily readable

reviews of the latest research in vaccinology and vaccine immune response to pathogens of major economic impact to livestock it covers advice and recommendations for vaccine production quality control and effective vaccination schemes including vaccine selection specifications vaccination programs vaccine handling in the field application failures and assessment of herd protection in addition the book presents discussions on the current status and potential future developments of vaccines and vaccination against selected transboundary animal diseases provides a clear and comprehensive guide on using veterinary vaccines to protect livestock from diseases teaches the principles of vaccinology and vaccine immune response highlights the vaccine production schemes and standards for quality control testing offers easy to read reviews of the most current research on the subject gives readers advice and recommendations on which vaccination schemes are most effective discusses the today s state of vaccines and vaccination against selected transboundary animal diseases as well as possible future developments in the field veterinary vaccines principles and applications is an important resource for veterinary practitioners animal health department officials vaccine scientists and veterinary students it will also be of interest to professional associations and ngo active in livestock industry

European Banking Supervision 2019-02-25

the uses of social investment provides the first study of the welfare state under the new post crisis austerity context and associated crisis management politics to take stock of the limits and potential of social investment it surveys the emergence diffusion limits merits and politics of social investment as the welfare policy paradigm for the 21st century seen through the lens of the life course contingencies of the competitive knowledge economy and modern family hood featuring contributions from leading scholars in the field the volume revisits the intellectual roots and normative foundations of social investment surveys the criticisms that have leveled against the social investment perspective in theory and policy practice and presents empirical evidence of social investment progress together with novel research methodologies for assessing socioeconomic rates of return on social investment given the progressive admittedly uneven diffusion of the social investment policy priorities across the globe the volume seeks to address the pressing political question as to whether the social investment turn is able to withstand the fiscal austerity backlash that has re emerged in the aftermath of the global financial crisis

Subsidiarity and EU Multilevel Governance 2020-10-08

although proven effective in protecting pregnancy giving birth and breastfeeding that is the biological differences of women related to maternity the current european union eu legislative framework on maternity leave tends to overlook the roles of both parents especially during the post delivery period of bonding with the child this framework along with eu law on parental leave which does not encourage an equal take up of the leave gives rise to serious issues of gender equality affecting both men and women this deeply researched and urgent book proposes alternative options for future eu law on child related leave which can be applied to

both employees and self employed workers to mitigate these limitations and side effects analysing the various eu directives which directly or indirectly relate to maternity leave paternity leave adoption leave and parental leave as well as the corresponding case law of the court of justice of the eu the author uses a social risk approach and tackles the following issues narrow focus of the legislation on the delivering mother s incapacity to work in practice excessive emphasis on the protection of the delivering mother silent assent to the unequal distribution of caring responsibilities within the family lack of attention to women s labour market outcomes and the new direction followed by the recently adopted directive on work life balance the research focuses on working parents including non delivering parents in same sex couples or adoption and includes a comparative analysis of the law of six countries belgium ireland spain the united kingdom sweden and portugal chosen to illustrate the variety of national schemes available and how their desirable features can be introduced into eu law a more balanced design of child related leave is a must in today s society for reasons of fairness and also for economic considerations this complete analysis of eu legislation and case law about child related leave including the first ever systematic and in depth analysis on whether maternity leave can be considered discriminatory against fathers and a review of economic literature on how child related leave affects the situation of women in the labour market offers forward looking solutions for child related leave to enhance gender equality practitioners and nongovernmental organisations dealing with eu and national matters related to labour and employment law social security law and gender equality law will welcome this important book as will academics and policymakers interested in maternity and other child related leaves

Freshwater Microplastics 2015-09-23

this open access book utilizes new data to thoroughly analyze the main factors currently shaping the african housing market some of these factors include the supply and demand for housing finance land tenure security issues construction cost conundrum infrastructure provision and low cost housing alternatives through detailed analysis the authors investigate the political economy surrounding the continent s housing market and the constraints that behind the scenes policy makers need to address in their attempts to provide affordable housing for the majority in need with africa s urban population growing rapidly this study highlights how broad demographic shifts and rapid urbanization are placing enormous pressure on the limited infrastructure in many cities and stretching the economic and social fabric of municipalities to their breaking point but beyond providing a snapshot of the present conditions of the african housing market the book offers recommendations and actionable measures for policy makers and other stakeholders on how best to provide affordable housing and alleviate africa s housing deficit this work will be of particular interest to practitioners non governmental organizations private sector actors students and researchers of economic policy international development and urban development
