~~they were in some way invented only in the fourteenth century~~
is no longer sustainable moreover modern writers have examined campaigns which for long seemed pointless because they did not lead to spectacular events like battles as a result we now understand the pattern of medieval war which often did not depend on battle but on exerting pressure on the opponent by economic warfare this pattern was intensified by the existence of castles and careful study has revealed much about their development and the evolving means of attacking them crusading warfare pitted westerners against a novel style of war and affords an opportunity to assess the military effectiveness of european methods new areas of study are now developing the logistics of medieval armies was always badly neglected while until very recently there was a silence on the victims of war assembled in this volume are 31 papers which represent milestones in the development of the new ideas about medieval warfare set in context by an introductory essay this book recovers the lost history of spanish socialism during the turbulent years of the civil war 1936 39 just as the energy of the socialist movement had sustained the pre war second republic as an experiment in reform so too it underwrote the republican war effort in the crucial years of the conflict which would determine spain s long term future leading socialist party psOE cadres formed the bedrock of the government while thousands of party and union militants helped bear the tremendous weight of the war effort the role of the psOE in the construction of republican political unity during the civil war was pivotal yet paradoxically previous accounts of wartime republican politics have virtually written the psOE out of the script by concentrating exclusively on the fierce ideological dispute between anarchists and communists but the key issues of revolution and state power marked all the forces in republican spain none more so than the socialist movement as the traditional party of the working class and the only mass party in spain as late as 1931 psOE militants were to be found on both sides of the revolutionary reformist divide which split fatally the republican forces during the civil war the psOE s disintegration was a function of that of the republic itself but the reverse was no less true the book investigates the responses of organised socialist to the issues raised by the conflict as it charts the

Star Wars Caballeros de la Antigua República no7 2011-10 el intento del padawan fugitivo zayne carrick de limpiar su nombre por el presunto asesinato de sus compañeros futuros jedi lo lleva a enfrentarse cara a cara con los soldados más temidos de la galaxia los mandalorianos junto a gryph delincuente de poca monta y el droide gruñón elebé zayne viaja a bordo del último recurso una nave renegada pilotada por el genio senil de camperry su feroz protectora jarael este grupo variopinto hará frente a secuestros de personas y de naves a científicos locos a traidores mandalorianos a cazar recompensas incompetentes y a unas cuantas explosiones

Star Wars Caballeros de la Antigua República no6 2011-09-02 the study of medieval warfare has developed enormously in recent years the figure of the armoured mounted knight who was believed to have materialized in carolingian times long dominated all discussion of the subject it is now understood that the knight emerged over a long period of time and that he was never alone on the field of conflict infantry at all times played a substantial role in conflict and the notion that they were in some way invented only in the fourteenth century is no longer sustainable moreover modern writers have examined campaigns which for long seemed pointless because they did not lead to spectacular events like battles as a result we now understand the pattern of medieval war which often did not depend on battle but on exerting pressure on the opponent by economic warfare this pattern was intensified by the existence of castles and careful study has revealed much about their development and the evolving means of attacking them crusading warfare pitted westerners against a novel style of war and affords an opportunity to assess the military effectiveness of european methods new areas of study are now developing the logistics of medieval armies was always badly neglected while until very recently there was a silence on the victims of war assembled in this volume are 31 papers which represent milestones in the development of the new ideas about medieval warfare set in context by an introductory essay

Coming of the Spanish Civil War 2003-09-02 this book recovers the lost history of spanish socialism during the turbulent years of the civil war 1936-39 just as the end of the first certificate movement had sustained the pre-war second republican

as an experiment in reform so too it underwrote the republican war effort in the crucial years of the conflict which would determine Spain's long term future leading socialist party PSOE cadres formed the bedrock of the government while thousands of party and union militants helped bear the tremendous weight of the war effort the role of the PSOE in the construction of republican political unity during the civil war was pivotal yet paradoxically previous accounts of wartime republican politics have virtually written the PSOE out of the script by concentrating exclusively on the fierce ideological dispute between anarchists and communists but the key issues of revolution and state power marked all the forces in republican Spain none more so than the socialist movement as the traditional party of the working class and the only mass party in Spain as late as 1931 PSOE militants were to be found on both sides of the revolutionary reformist divide which split fatally the republican forces during the civil war the PSOE's disintegration was a function of that of the Republic itself but the reverse was no less true the book investigates the responses of organised socialism to the complex issues raised by the conflict as it charts the PSOE's devastating experience of political power and desperate crisis in a war it could not win

The Military Revolution and the Trajectory of Spain: War, State and Society 1500-1700 2020-12-21 textual agency examines the massive proliferation of poetic texts in fifteenth century Spain focusing on the important yet little known Cancionero poetry the largest poetic corpus of the European Middle Ages Ana M. Gómez Bravo situates this cultural production within its social political and material contexts she places the different forms of document production fostered by a shifting political and urban model alongside the rise in literacy and access to reading materials and spaces at the core of the book lies an examination of both the materials of writing and how human agents used and transformed them giving way to a textual agency that pertains not only to writers but to the inscribed paper Gómez Bravo also explores how authorial and textual agency were competing forces in the midst of an era marked by the institution of the Inquisition the advent of the absolutist state and the 1808-1814 and the constitutional 1812 the Spanish nation
