**Connecticut's Black Soldiers, 1775-1783** 2017-12-01 black soldiers of the american revolution not a credible statement in light of what most americans have read about the revolutionary war we have heard of casimir pulaski the marquis de lafayette the frenchman and baron von steuben the german but not black participants yet close to 5 000 blacks did fight in the war against the british and others served as laborers spies and guides the absence in our general histories of their activities in this struggle lies with the misconception that the afro american has contributed little or nothing towards the creation of the united states and its subsequent development for in most studies made of the revolutionary era there has been little impulse to search for evidences of service by blacks except perhaps to note the existence of slavery histories of connecticut have generally treated the revolution in a similar manner few of them have acknowledged the contributions of the black soldier this is partially true because the story of connecticut s black participant is one about the regular foot soldier in the revolution and not about the men who led him into battle or the political leaders who guided the nation and it is these men who most often fill the pages of our history books as one phase of the bicentennial observation the american revolution bicentennial commission of connecticut has authorized scholars in a wide range of study to write a series of monographs on the broadly defined revolutionary era of 1763 to 1787 these monographs appeared yearly beginning in 1973 through 1980 emphasis is placed upon the birth of the nation rather than on the winning of independence on the field of battle

*The Family on Trial in Revolutionary France* 2006-06-19 arming the irish revolution is an in depth investigation of the successes and failures of the militant irish republican efforts to arm themselves w h kautt s comprehensive account of irish republican army ira arms acquisition begins with its predecessors the irish volunteers and the national volunteers and counterintuitively with their rivals the pro union ulster volunteer force after the 1916 rising kautt details the functioning of the quartermaster general department of the irish volunteer general headquarters in dublin and basic arms acquisition in the early days of 1918 to 1919 he then closely examines rebel efforts at weapons and ammunition manufacturing and bombmaking and reveals that the ingenuity and resources poured into manufacturing were never able to become a primary source of weapons and ammunition as the conflict grew in intensity and expanded the rebels encountered increasing difficulty in obtaining and maintaining supplies of weapons and ammunition since modern weapons in a protracted conflict used more ammunition than previous generations of weapons and their complexity meant that the weapons could not be clandestinely produced within ireland thus as the rebels conducted campaigns that became difficult to combat their greatest limiting factor was that most of their weapons and ammunition had to be imported arming the irish revolution is the first work of research and analysis to explore in detail the irish work inside britain to establish arms centers and to conduct arms operations and trafficking it also examines the full extent of the overseas or foreign arms trade and the arms operations of the war of independence including the continuance into the truce and treaty eras and up to the outbreak of the civil war 1922 1923 all of which reveals how the rebel leaders ran complex maturing and capable smuggling and manufacturing enterprises worldwide under the noses of the police customs intelligence and the military for years without getting caught quite apart from the battlefield these groups and their activities led to political consequences playing no small part in producing what were real concessions from lloyd george s government in the last chapter kautt offers observations and conclusions about overall successes and failures that establishes arming the irish revolution as a landmark study of insurgent or revolutionary arms acquisition in both irish and military history
