A Treatise of the Materia Medica, Vol. 1 of 2 (Classic Reprint) 2018-08-21 excerpt from a treatise of the materia medica vol 1 of 2 the lectures on the materia medica formerly published in my name though very incorrect were so well received by the public that notwithstanding my endeavours to prevent it they have been several times reprinted and even translated into foreign languages this mark of public favour led me to think of giving a more correct and complete edition of those lectures but finding that it was not possible for me to give it with the corrections and supplements which would be necessary in a satisfying manner i have long abandoned that idea and judged it more proper to give an almost entirely new work which i endeavour to do in the present publication in this work i must acknowledge the omission of many articles which have commonly found a place in treatises on the same subject for such omissions it is proper for me here to account about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Repertory to the More Characteristic Symptoms of the Materia Medica 1992 approaches ancient magical practice through archaeology and social history

Materia Magica 2012 no 104 117 contain also the regents bulletins

Documents of the Senate of the State of New York 1870 examining the compelling and often poignant connection between women and the material culture of death this collection focuses on the objects women make the images they keep the practices they use or are responsible for and the places they inhabit and construct through ritual and custom women's material practices ranging from wearing mourning jewelry to dressing the dead stitching memorial samplers to constructing skull boxes collecting funeral programs to collecting and studying diseased hearts making and collecting taxidermies and making sculptures honoring the death are explored in this collection as well as women's affective responses and sentimental labor that mark their expected and unexpected participation in the social practices surrounding death and the dead the largely invisible work involved in commemorating and constructing narratives and memorials about the dead from family members and friends to national figures calls attention to the role women as memory keepers for families local communities and the nation women have tended to work collaboratively making collecting and sharing objects that conveyed sentiments about the deceased whether human or animal as well as the identity of mourners death is about loss and many of the mourning practices that women have traditionally and are currently engaged in are about dealing with private grief and public loss as well as working to mitigate the more general anxiety that death engenders about the impermanence of life

Proceedings of the American Pharmaceutical Association at the annual meeting 1892 craft practice has a rich history and remains vibrant sustaining communities while negotiating cultures within local or international contexts more than two centuries of industrialization have not extinguished handmade goods rather the broader force of industrialization has redefined and continues to define the context of creation deployment and use of craft objects with object study at the core this book brings together a collection of essays that address the past and present of craft production its use and meaning within a range of community settings from the huron wendat of colonial quebec to the girls friendly society of twentieth century england the making of handcrafted objects has and continues to flourish despite the powerful juggernaut of global industrialization whether inspired by a calculated refutation of industrial sameness an essential means to sustain a cultural community under threat or a rejection of the imposed definitions by a dominant culture the broader effects of urbanizing imperial and globalizing projects shape the multiple contexts of interaction and resistance that can define craft ventures through place and time by attending to the political histories of craft objects and their makers over the last few centuries these essays reveal the creative persistence of various hand mediums and the material debates they represented

Annual Report of the Regents 1892 atlas of material worlds is a highly designed narrative atlas illustrating the agency of nonliving materials with unique ubiquitous and often hidden influence on our daily lives employing new materialism as a jumping off point it examines the increasingly blurry lines between the organic and inorganic engaging the following questions what roles do nonliving materials play might a closer examination of those roles reveal an undeniable agency we have long overlooked or disregarded if so does this material agency change our understanding of the social structures ecologies economies cosmologies technologies and landscapes that surround us and perhaps most importantly why does material agency matter this is the story of the world's driest nonpolar desert pink flamingos and cerulean blue lithium ponds industrial shipping logistics pudding like jiggling substrates and monuments of mud galactic bodies radioactive sheep and the yellowcake of uranium put simply this book dares readers to see the world anew from material up atlas of material worlds offers this new relationship to our host environment in a time of mounting crises accelerating climate change ballooning socioeconomic inequality and rising toxic nationalism

uniquely telling materialist stories for practitioners and students in landscape architecture and other built environment disciplines

The Clinique 1881 what is the nature of the material world and how are its fundamental constituents to be described these questions are of central concern to contemporary philosophers and in their attempt to answer them they have begun reconsidering traditional views about metaphysical structure including the aristotelian view that material objects are best described as hylomorphic compounds that is objects composed of both matter hyle and form morphe in this major new study jeffrey e brower presents and explains the hylomorphic conception of the material world developed by thomas aquinas the most influential aristotelian of the middle ages according to brower the key to understanding aquinas s conception lies in his distinctive account of intrinsic change beginning with a novel analysis of this account brower systematically introduces all the elements of aquinas s hylomorphism showing how they apply to material objects in general and human beings in particular the resulting picture not only sheds new light on aquinas s ontology as a whole but provides a wholesale alternative to the standard contemporary accounts of material objects in addition to presenting and explaining aquinas s views brower seeks wherever possible to bring them into dialogue with the best recent literature on related topics along the way he highlights the contribution that aquinas s views make to a host of contemporary metaphysical debates including the nature of change composition material constitution the ontology of stuff vs things the proper analysis of ordinary objects the truthmakers for essential vs accidental predication and the metaphysics of property possession

Women and the Material Culture of Death 2017-07-05 this collection examines cloth as a material and consumer object from early periods to the twenty first century across multiple oceanic sites from zanzibar muscat and kampala to ajanta srivijaya and osaka it moves beyond usual focuses on a single fibre such as cotton or place such as india to provide a fresh expansive perspective of the ocean as an interaction based arena with an internal dynamism and historical coherence forged by material exchange and human relationships contributors map shifting social cultural and commercial circuits to chart the many histories of cloth across the region they also trace these histories up to the present with discussions of contemporary trade in dubai zanzibar and eritrea richly illustrated this collection brings together new and diverse strands in the long story of textiles in the indian ocean past and present

"Craft, Community and the Material Culture of Place and Politics, 19th-20th Century " 2017-07-05 excerpt from a therapeutical arrangement of the materia medica or the materia medica arranged upon physiological principles and in the order of the general practical value which remedial agents hold under their several denominations and in conformity with the physiological doctrines set forth in the medical and physiological commentaries tms work has been rather hastily prepared indeed was not undertaken till within the last two months and has been carried on in the midst of many pressing engagements about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Merck's Manual of the Materia Medica 1972 the chapters present the problems of stresses and strains induced in metals and nonmetals in the processes of laser heating analyze the results offer the ways of laser treatment that dispense with subsequent machining operations and describe the basic approaches to increase the strength of materials during laser heating other topics include the practical methods of implementing the processes of laser welding cutting hardening alloying and cladding hardfacing basics of laser material processing is designed for scientific workers and for those students in senior and graduate level courses

Atlas of Material Worlds 2021-08-17 excerpt from the concordance repertory of the more characteristic symptoms of the materia medica vol 5 explanation the concordance repertory is arranged like an index or dictionary in compiling it the author observed the following rule give the noun verb and essential adjective in the sentence to find any desired symptom first fix the proper phraseology in the mind or better write it down then select the noun verb or essential adjective giving preference to the word expressing the central thought idea fact condition or object of the sentence and then refer to the word in the section of the concordance devoted to the portion of the body affected for instance take the symptom sensation of a valve in larynx the symptom refers to a condition of the larynx and can be found in the section devoted to the voice larynx and trachea it can be found under either sensation or valve in the concordance about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the

aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Aquinas's Ontology of the Material World 2017-03-09 the purpose of the research reported in this publication was to evaluate the current definition of the grade factor for broken corn and foreign material bc fm and to examine alternative definitions based on various sizes of screens the data were obtained through analysis of 1 080 samples of corn from illinois elevators the data show that the 12 64 inch round hole sieve currently used does not result in maximum differentiation between corn and bc fm since much of the material passing through the sieve is broken corn other sieve sizes would increase the contrast between corn and bc fm on physical and chemical properties although in this research none of the sieve sizes clearly differentiated between corn and bc fm on all properties to improve the information provided by the bc fm factor in the corn standards any revision of the factor must involve more than just a change in sieve size it must also include a redefinition of foreign material alteration of the maximum allowances for each grade and development of some means of identifying broken kernels in addition these revisions must take into account the requirements of processors feeders and merchandisers this study provides data on which an evaluation of the alternatives can be based

Proceedings 1875 this is a reproduction of a book published before 1923 this book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process we believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide we appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book

Textile Trades, Consumer Cultures, and the Material Worlds of the Indian Ocean 2018-02-09 excerpt from essays on some of the most important articles of the materia medica comprising a full account of all the new proximate principles and the popular medicines lately introduced in practice detailing the formulas for their preparation their habitudes and peculiarities doses and modes of administration and my object was more for the purpose of keeping up strict habits of industry and close application than for any benefit which i could anticipate to result from their publication the former i am certain to have attained and should the latter result i shall be doubly rewarded i have at various times contributed essays on the different articles of the materia medica to our medical journals particularly to the philadelphia journal of medical and physical sciences and to the recent highly valuable periodical the american journal of medical sciences also the interesting journal of science and arts edited by professor silliman of new haven my medical friends have frequently called upon me for copies of these essays until i had distributed several thousand of each when i was earnestly solicited for some time having exhausted all the loose copies i had printed to publish them together and in compliance with these requests i have introduced this work to public attention i rely upon my medical friends for its support and i purpose if sufficiently encouraged to publish a more enlarged view of the articles of the materia medica generally under the title of pharmacologia in the present work i have added considerably to the essays above alluded to by ih about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

A Botanical Materia Medica 1812 provides assistance in identifying recycling technologies for a wide variety of contaminants and matrices including energy recovery decanting thermal desorption solvent extraction pumping and recovery freeze crystallization thermolysis ion exchange reverse osmosis diffusion dialysis evaporation amalgamation cementation electrowinning vitrification physical separation mercury distillation etc contents description of recycling technologies product quality specifications 8 case studies extensive references 50 charts and tables

The Movement of Soil Material by the Wind 1911 1859 accompanied by volume of maps with title engravings of plans profiles and maps illustrating the standard models from which are built the important structures on the new york state canals

Ocean Dumping of Dredged Material in the New York Bight Apex 1983 from antique bottles to closely guarded recipes and treasured historic architecture breweries have a special place in american history this fascinating book brings the material culture of breweries in the united states to life from many regions of the country and from early 16th century

production to today's industrial operations herman ronnenberg traces the evolution of techniques equipment raw materials and architecture over five centuries discusses informal production outside of breweries and offers detailed information on makers marks patents labels and beer containers that allows readers to identify items in their own collections heavily illustrated with photographs and line drawings this book will be popular with collectors and general readers and a key reference in historical archaeology local history material culture and related fields

A Therapeutical Arrangement of the Materia Medica, Or the Materia Medica Arranged Upon Physiological Principles, and in the Order of the General Practical Value

2018-02-15 a description of many of the materials used in the practice of practical magic along with some formulas for specific products and warnings of some hazards of long used products designed for reference by the operative magician

Basics of Laser Material Processing 1994-04-04 the material basis of energy transitions explores the intersection between critical raw material provision and the energy system chapters draw on examples and case studies involving energy technologies e.g. electric power transport and raw material provision e.g. mining recycling and consider these in their regional and global contexts the book critically discusses issues such as the notion of criticality in the context of a circular economy approaches for estimating the need for raw materials certification schemes for raw materials the role of consumers and the impact of renewable energy development on resource conflicts each chapter deals with a specific issue that characterizes the interdependency between critical raw materials and renewable energies by examining case studies from a particular conceptual perspective the book is a resource for students and researchers from the social sciences natural sciences and engineering as well as interdisciplinary scholars interested in the field of renewable energies the circular economy recycling transport and mining the book is also of interest to policymakers in the fields of renewable energy recycling and mining professionals from the energy and resource industries as well as energy experts and consultants looking for an interdisciplinary assessment of critical materials provides a comprehensive overview of key issues related to the nexus between renewable energy and critical raw materials explores interdisciplinary perspectives from the natural sciences engineering and social sciences discusses critical strategies to address the nexus from a practitioner's perspective
